

Smart Support

Technical support packages for Endress+Hauser instrumentation

Customer benefits

- Reduce unexpected downtime
- Reduce maintenance staff efforts
- Save costs of field service visits and instrument returns
- Increase your instrumentation expertise

Smart Support provides the necessary help from Endress+Hauser experts who address technical inquiries about instruments and processes in a timely manner.

In the event of an incident or unexpected downtime, our experts are available to get you back up and running quickly. They are able to perform remote diagnostics, troubleshoot your instrumentation and guide you through service operations. They can also offer live video transmission or screen sharing for efficient support sessions whenever needed.

You get dedicated access to a growing knowledge base on Endress+Hauser instruments, applications and service operations for immediate self-service or to improve your skills.

You can create, update and manage your support cases and track service incidents online. There are customized service level agreements with guaranteed availability, response times and remote connectivity options available to best fit and accommodate your needs. Obtain the most value out of your instruments and processes to maximize your business outcomes.

Endress+Hauser technical support packages

Smart Support is available in different support plans designed to keep your instruments operating at optimal performance. Explore the range of options and choose the plan that best fits your needs. If you want to know more about technical support service packages, please contact us on tel. 020 1103 600 or by e-mail info.fi.sc@endress.com.
